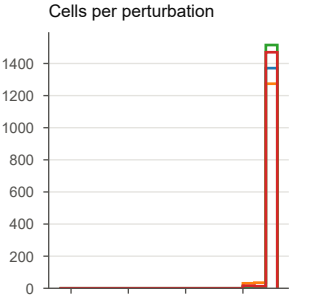
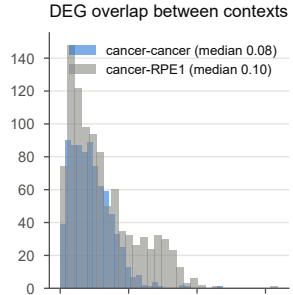
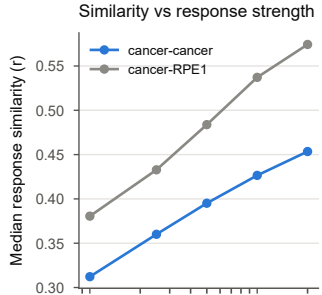
Response size per context
K562
HepG2
Jurkat
RPE1
Perturbations
log10(1 + # DEGs)



Cells per perturbation
Cells per perturbation (after subsampling)



DEG overlap between contexts
cancer-cancer (median 0.08)
cancer-RPE1 (median 0.10)
Jaccard index of DEG sets



Similarity vs response strength
cancer-cancer
cancer-RPE1
Median response similarity (r)
Minimum # DEGs in both contexts
